Endeavour Room

Location	80 Prymont Street, Pymont, NSW
Value	\$23M
Area	2,000m ²
Developer	Tabcorp
Architect	Cox Richardson
Builder	Inscope Solutions Pty Ltd
Status	Completed 2008
Awards	MBA Excellence in Construction – Refurbishment 2008 MBA Excellence in Construction – Best Use of Glass 2008

About

This project was the largest project undertaken at Star City Casino since its opening, and involved the construction of a new building on an existing terrace level to create a new exclusive VIP gaming area.

The works involved significant demolition of the existing structure, roof terrace areas, facades, bridge and internal spaces on L4 and a major reconfiguration of building services.

The building consists of a two level steel and concrete structure with a complexity of levels and interconnecting spaces.

The works were undertaken within the confines of a 24/7 operating casino environment, Star City Casino required a high level of security and attention to public safety as well as placing high demands on noise/dust suppression, debris removal and materials
