## Cochlear – Office alteration/refurbishment

<b>Location</b>	Lane Cove
<b>Value</b>	\$0.75M
<b>Area</b>	4000m <sup>2</sup>
<b>Client</b>	Cochlear
<b>Architect</b>	Bowden Design
<b>Builder</b>	Inscope Solutions Pty Ltd
<b>Status</b>	Completed 2005

### About

This project involved a major relocation of the entry lobby to improve its presence, and a new façade and awnings.

Internally that project entailed the creation of a new glassed roof atrium within the building, new reception lobby, new stairwell to the first floor office area from the Reception Area, installation of a new lift shaft and lift.

The works were carried out whilst the company stayed in operation and through close consultation with Cochlear, dust, noise and inconvenience were kept to a minimum.
